Unlock endless possibilities with DeliverOL

Introduction

Whether you are a wines or spirits manufacture, distributor, or retailer, you are passionate about your craft and know the superiority of your products. You take great care to ensure that your product is of the highest standards and designed to meet your customers desires. However, you must also find the best way to ship timely, safely and efficiently without damaging your products quality by the time it reaches your end consumers. Even so, there is a great deal of work in between. The logistics of sorting, bottling, packaging and the final delivery to your customer's doorstep.

DeliverOL brings to you cutting edge technological solutions, resources, and intelligent fulfillment strategies to improve service, avoid shipment error, save costs and boost productivity. We are fully licensed to warehouse and transport your wines and spirits safely. Even so, our knowledge of wine care, logistics and regulations means we ship and safeguard your products with stringent protocols. We believe in helping you reach your customers in the most cost-effective and efficient manner gives you the edge over your competition.

EXPERIENCE ROBUST DELIVERY CAPABILITIES FOR BORDERLESS CONNECTIVITY

WAREHOUSING

Monitor Your Inventory, Anywhere, Anytime

Our Capabilities

- Real-Time Inventory Management
- Automated Order Confirmation, Tracking and Delivery
- Scalable & Flexible Inventory Storage
- Vendor Compliance with Advance Shipping Notifications (ASN), Parcel Labels, and Purchase Order Receipts
- Modern Shelving Systems and Pallet Spaces
- Multichannel e-commerce platforms
- High Safety and Compliance U.S.

Inventory warehousing takes a significant amount of space and requires strategic locations for easy distribution. Your wine and spirits products also require specialized warehousing solutions with guaranteed safety, storage, and security competencies. DeliverOL brings to you full FDA-TTB-compliant warehousing facilities across strategic locations in the U.S. We also implement cutting edge warehouse automation and superior equipment for added efficiency and exceptional reliability.

Pick and Pack Fulfillment

YOUR ORDER FULFILLMENT, AT THE DROP OF A HAT

Shipping alcoholic beverages at high volumes demands expert logistical and technological knowledge. We also understand that your products demand large bulk shipping to destinations closer to your customers. Our fulfillment solutions are designed to meet your needs regarding safety, space, storage conditions and security. Our facilities will offer not just the traditional pick and pack services but deal with all issues, especially attuned to your wine and spirits industry, thereby making sure you scale with time and season.

Whether you ship a handful or thousands, we provide smart and advanced pick and pack solutions designed to meet your order requirements. We understand your need for smart picking strategies that save on resources while shortening product lead times. DeliverOL is fully licensed to ship alcohol. Our team of professional also stay aware of all regulations on alcohol, wine and beer sales to ensure that you have the best capabilities and solutions are also regulatory compliant. Beyond basic packing, we can support your subscription based wine deliveries with pick and pack solutions specifically designed to allow customized selections and curations of multiple pieces into a single read to ship product.

Our Capabilities:

- Brand Packaging
- Custom made packaging solutions
- Printing of inserts, invoices, and delivery notes for shipment
- Wave picking
- Zone picking
- Batch picking
- Cluster picking
- Efficient Pick and Pack
- Protective packaging
- Contract Packaging
- Just-in-time packaging

DELIVEROL BRINGS TO YOU, NOT ONLY WORKFORCE SOLUTIONS, BUT TECHNOLOGICAL SOLUTIONS TO BREAK THE BARRIERS OF PHYSICAL LIMITATIONS.

GOING ABOVE AND BEYOND TO DELIVERY SAFER, FASTER, AND SMARTER

LAST MILE DELIVERY SERVICE

Blazing-Fast & On-Time, To Your Customer's Door

Our Capabilities:

- 46+ Fulfillment Centers in US
- In-store pickup delivery options
- Hassle-free batch processing
- Flexible shipping partners
- Automatic shipment tracking
- and so much more

Your last mile represents over 50% of transportation costs and will greatly impact on delivery experience. Yet, having multiple delivery and fulfillment strategies has become a key determinant for success in today's beer, wine, and spirits market. Customers now want control over their delivery options. Hence, you need to optimize your last-mile operations to offer a smart list of delivery options that would delight your customers. Gain the advantage with DeliverOL's superior last mile delivery solutions tailored to impact your product's lifecycle.

We bring to you a robust network of shipping partners, fulfillment, and distribution centers at your service. From same-day, two-day delivery plans, express shipping, economy shipping to climate-neutral delivery options, we are here for you. That way, you can take advantage of numerous solutions while saving time and money, meeting your customers needs, and attaining maximum flexibility. Our solutions will also help you expand your reach, manage seasonal peaks without incurring unnecessary risks.

Reverse Logistics

SIMPLIFIED OPERATIONS FOR FRICTIONLESS RETURNS

Returns is also a vital aspect of your business - online or brick and mortar. Returns may be repackaged or integrated into your warehouse. Other times defective or damaged products are sent back to the manufacturing unit or salvaged for parts. When products re-enter the supply chain due to a return, recall, or other reasons, you need a process that keeps your inventory balanced while maintaining a great relationship with your customers. DeliverOL can help you handle the entire process and ensure customer satisfaction. We can also help you take advantage of in-store returns alongside other reverse logistic services to support your growth.

Our Capabilities:

- Restocking and repackaging
- Quality control and re-storage
- Returns shipment
- Disposal / Repurpose / Recycle
- Returns analytics and management
